Unit/s national code/s and title/s	ICTWEB522 Develop Website Information Architecture

Assessment Instrument:

Assessment 2 - IA Task 1 – Requirement Summary

Instructions

Develop requirements summary

You are required to write a summary of the requirements for the Bazaar Ceramics website or your Client Project site. You should:

- Review the Requirements document. A requirements document was created in stage two (Business requirements) and three (Technical requirements) of the project. Your supervisor will give you details of where to find the requirements document.
- Write a brief summary of the website requirements using the Appendix A - [Requirements Summary](#) template attached at the end of this document. It can be modified to your own design.

Session 1 – Identify Content Needs

Requirement Summary

The completed Requirement Summary will have the following criteria:

- Use template for a summary requirement
- Include an Opportunity or problem statement
- Include Mandatory functional requirements
- Identify target audience
- Identify technical requirements
- Identify the default screen resolution
- Establish file naming convention
- Establish folder naming conventions
- Identify browser compatibilities

Assessment # and title	Assessment 2: IA Task 1 – Requirement Summary		
Lecturer name	Anthony Evans		
Student name			
Student ID number			
Telephone contact number		Email:	
<p>By completing and submitting this signed form to my lecturer, I am stating that:</p> <ul style="list-style-type: none"> a. The attached submission is completely my own work b. I have correctly cited all sources of information used in this work (if required) c. I have kept a copy of this assessment (where practicable) d. I understand a copy of my assessment will be kept by the NMTAFE for their records e. I understand my assessment may be selected for use in the NMTAFE's validation and audit process to ensure student assessment meets requirements 			
Student Signature		Date	

Assessor please note: Where verbal clarification has been sought from a student to gather additional assessment evidence from an assessment item, question/s and response/s must be recorded, signed, and dated by the assessor, against the relevant assessment item/s.

Submission 1 ☐ **Assessment Result Satisfactory / Not Yet Satisfactory** (please circle) **Date:** _____

To satisfy requirements for this assessment, you need to complete the following:

Criteria No.	Complete the following tasks	S or NYS
1	Use template for a summary requirement	<input type="checkbox"/>
2	Include an Opportunity or problem statement	<input type="checkbox"/>
3	Include Mandatory functional requirements	<input type="checkbox"/>
4	Identify target audience	<input type="checkbox"/>
5	Identify technical requirements	<input type="checkbox"/>
6	Identify the default screen resolution	<input type="checkbox"/>
7	Establish file naming convention	<input type="checkbox"/>
8	Establish folder naming conventions	<input type="checkbox"/>

Assessment Task

Qualification national code and title	ICT50120 Diploma of Information Technology Front End Web Development
Unit/s national code/s and title/s	ICTWEB522 Develop Website Information Architecture

9	Identify browser compatibilities	<input type="checkbox"/>
---	----------------------------------	--------------------------

Submission 2 ☐ **Assessment Result Satisfactory / Not Yet Satisfactory** (please circle) **Date:** _____

To satisfy requirements for this assessment, you need to complete the following:

Student Feedback

Lecturer Signature: Anthony Evans _____ **Student Signature:** _____

Qualification national code and title	ICT50120 Diploma of Information Technology Front End Web Development
Unit/s national code/s and title/s	ICTWEB522 Develop Website Information Architecture

Appendix A

REQUIREMENTS SUMMARY

1. Purpose

The purpose of this document is to provide an understanding of the system to be designed.

Opportunity or problem statement

< Insert a copy of problem or opportunity statement from business requirements or technical requirements documents. >

Mandatory functional requirements

< Insert a copy of the mandatory functional requirements from business requirements or technical requirements documents.>
